Technical Infrastructure Requirements for Students
for Remote Learning in 2020-21-I

1. It is best to have a broadband or a 4G connection for streaming lecture videos and live discussions.

2. MicroSD cards with course materials will be sent to students who have no network access. Thus, a MicroSD card slot should be available in your Mobile Phone, or you may use a MicroSD card reader.

3. It would be better to have a Laptop/Tablet than a mobile phone.

4. Download and Install the required apps for attending lectures and accessing lecture materials as recommended by the instructor.

5. Install SSL-VPN (IIT Kanpur) for remote access. See here.

6. Get access to Office 365, licensed by IIT Kanpur. See here.

7. Install the videoconferencing app for live interactive sessions that an instructor recommends.

8. Have sufficient storage in your device for downloading lecture video/audio contents.

9. Headsets are optional.

10. Pre-registration, including HSS Pre-registration, and registration, will be on the Pingala Portal which can be accessed through the Internet.

11. For updates, visit http://www.iitk.ac.in/doaa.
