

**Title of your paper should in running text of font size 16 and bold face font without capitalizing the letters**

One blank line of 12 font

Author1<sup>a</sup>, Author2<sup>a</sup> and Author3<sup>b,\*</sup>

<sup>a</sup> *The affiliation and full address of Author1 and Author2*

<sup>b</sup> *The affiliation and full address of Author3*

*\* email\_id@Institute.domain*

One blank line of 12 font

Please write your abstract in Times New Roman 10 size fonts in single spaced text. Indent every new paragraph. Use left-right justification for the text. The entire abstract, inclusive of the equations, figures, tables and references etc., should be constrained to one page. Maintain a margin space of 3cm on both the left and right sides, top margin and a bottom margins of 2.5 cm.

Please embed any equations or figures as objects using bitmap or jpeg files so that the fonts will all come out properly without any mistakes. Do not keep any package dependent objects such as equation editor, mathletters or Origin graphs etc. as we may not have the packages or fonts installed to properly reproduce it.

Figures should be in black-white or greyscale. Kindly pay attention to the resolution to make it visible in a printout of the full abstract on a A4 size paper. Figures and equations should be numbered. Figure and table captions should be italicized. The figure and table captions should make the figure or table understandable without reference to the text. Separate figures and tables from the text by one blank line both above and below the figure or table.

Proper citations should be given to original sources. The citation style to be used is shown in the reference [1] below. Submit the files as Microsoft WORD 97/2000/XP files and also a pdf file generated by you for comparison to [mpns2013@yahoo.com](mailto:mpns2013@yahoo.com).

One blank line
