Date: 21st November, 2016
Enquiry number: PCTS/ME/2016/33

Web Inquiry

We are planning to purchase an **air compressor** with standard accessories for our sponsored research project. The specifications should be strictly as follows:

1. Max. pressure: 10 bar
2. Flow rate: About 5 l/s at approx. 8 bar
3. Tank size: Approximately 200 liter
4. Noise level: less than 70 dB

Technical and financial offers must be packed separately.

Kindly send hard copy of your offer at the following address before 2nd December, 2016. The offer must contain the usual terms and conditions of supply, tax, freight charges, offer validity, warranty, educational discount, delivery period etc. Any other accessory required for the flow meter must be quoted and described separately along with the main financial offer.

Thanking you,

Sameer Khandekar
